HOW TO PLACE YOUR BIN CORRECTLY

Waste collection is robotic for ALL rolling bins (no matter the color), thus it is essential to place them properly by the side of the road on the EVE of the collection day in the following manner:

- Maximum distance of 1.5 m (4.5 ft) from the road
- Lid must be closed and free of any objects
- Wheels and handles positioned house-side
- Approx. 50 cm (18 inches) between each bin.
